Sequence 2, Application US/09410464

Patent No. 6395892

Fatent No. 6395892

JERNERALI NFORMATION:

TITLE OF INVENTION: Floral homeotic genes for manipulation of flowering in TITLE OF INVENTION: poplar and other plant species.

FILE REFERENCE: 53375

CURRENT APPLICATION NUMBER: US/09/410,464

FARLIER APPLICATION NUMBER: 09/287,700

FARLIER APPLICATION NUMBER: 60/080,851

EARLIER FILING DATE: 1998-04-06

NUMBER OF SEQ ID NOS: 24

SOFTWARE: PatentIN Ver. 2.0

Patent No. 6025433
GENERAL INFORMATION:
APPLICANT: Yanofsky, Martin F.
TITLE OF INVENTION: Maize and Cauliflower APETALA1 Gene
TITLE OF INVENTION: Products and Nucleic Acid Molecules Encoding Same
NUMBER OF SEQUENCES: 26
CORRESPONDENCE ADDRESS:
                                                                                             SerThrThrLeuThrGluileLeuAspLysTyr-----HisGlyGlnSerGlyLysLys

| Patent No. 6229066
| General INFORMATION:
| APPLICANT: Yanofsky, Martin F.
| APPLICANT: Martienseen, Robert
| APPLICANT: Perrandiz, Cristina
| APPLICANT: Perrandiz, Cristina
| APPLICANT: Gu, Oinsensing Fruit Size in a Plant
| TILE OF INVENTYON: Method of Increasing Fruit Size in a Plant
| FILE REFERENCE: P-UD 3040
| CURRENT APPLICATION NUMBER: US/09/105,652
| CURRENT FILING DATE: 1998-06-26
| EARLIER APPLICATION NUMBER: 60/051,030
| EARLIER OF SEQ ID NOS: 4
| SOFTWARE: PatentIN Ver. 2.0
| SOFTWARE: PatentIN Ver. 2.0
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     1062
